Ives Lao

Director of Monetization & Data Analysis at Perfect Corp.

"2Checkout provided the global payments and subscription infrastructure we needed to confidently launch and scale YouCam Online Editor worldwide. Their Merchant of Record solution simplified tax compliance across regions, while localized checkout experiences and strong analytics helped us improve conversions and drive substantial year-over-year revenue growth.

Throughout the process, their team provided responsive, professional support, quickly addressing issues as they arose and acting as a trusted partner in our global expansion."

About

Perfect Corp. is the leading SaaS artificial intelligence and augmented reality beauty and fashion tech business solutions provider, dedicated to transforming the consumer shopping experience through seamless and omnichannel experiences.

They are pushing the frontiers of technology to offer results-driven, inclusive, interactive, and sustainable solutions that can be easily integrated into a brand's website and apps, as well as various social media channels, including Instagram, Snapchat, YouTube, and many more.

On the consumer side, with over 1 billion downloads globally, the immersive collection of YouCam apps provide a platform for individuals to virtually try-on products, looks, and styles, conveniently from their smart device.

Context & Objectives

With YouCam Online Editor, an AI powered solution positioned as an international product, Perfect Corp. needed a payments solution that could support rapid global expansion while minimizing operational complexity.

During the evaluation process, the team assessed several payment providers. Many were eliminated early due to limitations in global tax compliance and the inability to support diverse regional requirements. Different markets impose different tax regulations, and Perfect Corp. needed a solution that could automate tax handling across multiple jurisdictions to ensure compliance and reduce internal overhead.

In addition to compliance, Perfect Corp.'s key objectives included:

Supporting customers across 200+ global markets;

Enabling multi-currency payments and local payment methods;

Implementing robust subscription management for recurring revenue;

Context & Objectives

Improving analytics and reporting to better understand revenue and customer behavior;

Optimizing the checkout experience to increase conversion rates and subscription retention.

2Checkout stood out for its global reach, Merchant of Record solution, and subscription management capabilities, making it the right partner to support both the launch and long-term growth of YouCam Online Editor.

Solution & Results

Global Payments, Compliance & Scale

By supporting payments in 200+ global markets and multiple currencies, 2Checkout enabled localized customer experiences while automating tax compliance through the Merchant of Record solution, significantly reducing operational complexity.

Checkout Optimization, Analytics & Growth Impact

Using 2Checkout's streamlined checkout flows and localized pricing, Perfect Corp. improved customer experience and used analytics to uncover user behavior insights, eliminate checkout friction, and optimize conversion performance.

Measurable Business Outcomes

These improvements translated into strong business outcomes, with +250% year-over-year revenue growth, higher conversions, improved subscription performance, and faster global market expansion.

Benefits & Results

- +250% YoY revenue growth
- Global expansion across 200+ markets
- Higher checkout conversion rates
- Improved subscription retention
- Simplified tax compliance operations
