

2Checkout Opens Turkish Market

Businesses selling products and services online out of Turkey have access to the 2Checkout eCommerce platform and services.

COLUMBUS, OH – June 5, 2018 – 2Checkout today announces the opening of the Turkish market: companies based in Turkey will be able to process online payments through the 2Checkout platform.

Currently processing payments for vendors from more than 100 countries, 2Checkout is helping clients reach a global market, seamlessly. Key features include a large global reach, a hosted checkout, payment API, flexible integrations, recurring billing and advanced fraud protection among other capabilities.

More information: Visit the [2checkout.com](https://www.2checkout.com) website for more information on pricing depending on your company's location: <https://www.2checkout.com/pricing>.

About 2Checkout:

2Checkout is a global payment platform that makes it easy to accept online and mobile payments, from anyone, anywhere. Supporting transactions in 211 markets, 2Checkout offers pre-integrated payments gateway, merchant account, PCI compliance, international fraud prevention, and integration with more than 100 shopping carts, along with outstanding live customer support.
