

2Checkout Named Leader in E-Commerce Software and Subscription Management and High Performer in E-Commerce Platforms on G2 Crowd

Positive user reviews lead to top rankings in multiple categories for 2Checkout, marking it as an industry leader with high levels of customer satisfaction.

ATLANTA, GA – April 30, 2018 – 2Checkout (formerly Avangate) today announced that it was ranked a leader in Grid® Reports for [E-Commerce Software overall](#) and [Subscription Management](#), as well as a high performer in the [E-Commerce Platforms](#) category, by G2 Crowd, a leading business solutions review website.

2Checkout achieved high rankings by receiving positive reviews from verified users in the G2 Crowd community. For inclusion in the report, products must have at least 10 validated reviews. Top products in each category are determined by customer satisfaction (based on user reviews) and scale (based on market share, vendor size, and social impact).

“Rankings on G2 Crowd reports are based on data provided to us by real users,” said Michael Fauscette, Chief Research Officer, G2 Crowd. “We are excited to share the achievements of the products ranked on our site because they represent the voice of the user and offer terrific insights to potential buyers around the world.”

“2Checkout is proud to be included in the latest G2 Crowd rankings for E-Commerce Software and Subscription Management,” said Erich Litch, Chief Revenue Officer at 2Checkout. “We strive to provide our users with all the tools they need to achieve e-commerce success. With our end-to-end modularized digital commerce solution, we simplify complexities like payment methods, subscription billing, taxes, compliance and risk so merchants can stay focused on continuously innovating their business. We are pleased to have our efforts recognized by real users in these rankings.”

A recent G2 Crowd review praises 2Checkout's "Reliable service, with no problems" and Friendly and helpful support," while noting its support for "Global payment processing, plus affiliate solution, all in one package." Another review confirms the platform has "All the flexibility and reporting you need. We have grown our business considerably thanks to [its] order processing system."
