2Checkout Selected as a J2Store Preferred for International Payments Gateway Partner

Collaboration empowers J2Store clients to reach potential customers in 197 countries

COLUMBUS, OH – July X, 2016 -- [2Checkout](#) announced a new partnership with [J2Store](#), an ecommerce platform for merchants using Joomla websites, to offer an easy and flexible, fully integrated payments solution. This partnership provides J2Store clients with expanded global access to additional customers worldwide.

J2Store specializes in delivering a powerful, flexible ecommerce solution for clients using Joomla. By redefining the complicated Joomla ecommerce into an online and mobile-friendly solution, J2Store provides merchants with tools to create an online store in minutes and comprehensive resources to manage and grow their business. One easy, seamless integration provides J2Store clients with the ability to transact in 197 countries while customizing to local currencies, payment methods and languages.

“We are happy to partner with 2Checkout to provide merchants the ability to accept payments securely in their online store,” said Ramesh Elamathi, CEO/Founder, J2Store. “We are excited that the partnership will enable merchants in 197 countries sell online with J2Store and 2Checkout.”

The integration with 2Checkout offers further worldwide reach through a fast and easy application. 2Checkout enables merchants worldwide to accept payments easily. The checkout experience is optimized for online and mobile with localized payment options, including integrated PayPal and Amex in one merchant account with flat rate pricing while providing advanced security and fraud prevention, as well as live customer support available in several languages.

“Our collaboration with J2Store is truly a strategic partnership,” stated Ken Benvenuto, 2Checkout CEO. “Our goal is to provide merchants worldwide with the ability to easily grow their business – our alliance with J2Store achieves this mission by providing a fully integrated payment solution to their merchants while expanding their prospective markets.”

2Checkout is fully integrated with J2Store thereby eliminating any technical work. To get started, J2Store clients simply load a plug-in to get setup quickly and easily:
